JORDAN ASHBURN

Bike: Beta 430 RR Race Edition

" I started Saturday off with a win in the first test. I had a great day going, then I crashed in the cross test losing a little time. I remounted and charged the rest of the day for 3rd place after day 1. Sunday the track really dried out and was very rutted. I struggled with the Enduro loop, and the track changed every test. I managed 5th on Sunday a mere 11secs from the overall podium."

MIKE WITKOWSKI

Bike: Beta 250 RR Race Edition

"On day 1 of the Sprint Enduro series it was super muddy and slick. I struggled to find a flow and get going which resulted in a slow first day of racing for me, but it picked up at the end with good race times. Day 2 rolled around, and I had great improvements, and some good test times. I ended up with 7th overall for the combined days and had a great time playing in the mud!"
